GENESIS

Prologue

Farscape

Nightingale sings, in highest of halls,
chanting its wondrous calls,
that pierces heart
falling apart,
breaking through prison walls.

Theme

Through Sundial Across [π]

Flaming arrow of flying spark,
seeks out sundial mark,
on the other side
at yuletide,
halfway out of the dark.

Buddha Sakya Muni

Parthian shot, in hasteful ride,
is battlefield turning tide,
with yoga training
in stretching,
that Ashtanga does provide.

Trilithon

Three Wise Men

Siegfried, who knows how to slay,
dragons both night and day,
has a clever brain cell
that goes to hell,
to rise again on third day.

INRI brings sword, and no peace,
to temple robbers' displeasure,
and by magic bean weed
of mustard seed,
he grows lilies in valleys.

Arthur pulls out of his fruit pebble,
a spring sprout seed rebel,
and as story is told
in fodder unfold,
he finds haystack needle.

Vatican Scam

Heavyweight was Petrus the rock,
as a chip of the old block,
but Pope Satan ain't
no saint,
because his name is Moloch.

Vatican Dictator Perpetuo

Pope Nero-Caligula, the head of the USA,
decides length of night and day,
as he forbade bright sun
to make oval run,
in course of presidential way.

Pope Nero-Caligula, the dragon from hell,
is Roman empire on Capitol Hill,
treading footprint trace
upon heathen face,
attempting Siegfried to kill.

Pope Nero-Caligula curses the merry band,
of green Robin's steady bow hand,
whose bold robbing industry
of blessed silvery,
is good fortune in prosperous land.

Ring Ring of Power

SS Gollum went to join Nazi party,
but was not welcomed eagerly,
as he was called monster
and awful stinker,
so he sought Mordor for liberty.

SS Gollum travelled in wasteland,
and drank in Mordor dry sand,
and in brotherhood of hell
he found Nazi Bell,
who flew him to Disneyland.

SS Gollum did origami Paperclip,
went to Woodstock on trip,
and danced free disco
in San Francisco,
smoking pipe in hippie flip.

Muddy Clearwater

Buzzy Buzzword was a simpleton,
as he tried to outrun Briton,
but Buzzy was never
so very clever,
in understanding wits as fun.

Buzzy Buzzword tried to race river,
in dwarf digging gold fever,
and deeper he went
in spiral descent,
down where bottom is forever.

Buzzy Buzzword had thing coming,
when Mississippi kept rolling,
as Huckleberry always
went waterways,
where love of God is flowing.

Story of Runology

Astronomical & Agricultural Year

Abram & Sons

Abram was white flight of souls,
fighting communist moles,
with Gomorrah eaten
and Sodom fallen,
into multicultural hellholes.

Abram was settler in wilderness,
swearing oath by whiteness,
who made reservation
against infiltration,
by sword point of sharpness.

Abram was armed men's leader,
planning survival in future,
by gathering farmers
and stargazers,
in name of sun year as father.

Isaac's Choice

Isaac was Abram's future spawn,
becoming man of his own,
and with free will
he could still,
be released, as unbound man.

Isaac was free, to leave by choice,
following his inner voice;
yet that would burn
his own return,
as foreign wife is no rejoice.

Isaac is either bound or unbound,
keeping man's stock sound,
with price to pay
either way,
when principle stands ground.

Jacob's Spiral

Jacob was celestial zodiac planner,
who spawned in that manner,
and with twelve sons
in solar run,
he named Israel his banner.

Jacob had twelve steps on his way,
alongside spiralling stairway,
with final destination
in high heaven,
far beyond night and day.

Jacob's dream was practical ideal,
that his stargazer could feel,
with every twelve way
as equal say,
against world struggle real.

Samuel's Headache

Samuel was judge, with grave call,
in choice of clan to rule all,
and that mistake
would break,
agreement, and lead to fall.

Samuel gave into urgent demand,
that king should rule land,
and thereby gain
ship captain,
as warlord with reins in hand.

Samuel had no means of certainty,
to ensure leadership quality,
because Rune test
of proven best,
was yet unknown to history.

Isaacs Unbound

Isaacs, unbound by Assyrian deportation,
protested against domestication,
and became horse industry
of mounted archery,
that spearheaded steppe rebellion.

Isaacs, unbound by Babylonian tyranny,
were taken into Moloch captivity,
and Isaacs were no longer
bound by any altar,
with broken bound to antiquity.

Isaacs, unbound from former designation,
find themselves new destination,
and, by compass rivers four,
open heaven's door,
and in sundial navigate liberation.

Rune Invention

Unbound Isaacs invented solution,
to solve kingship confusion,
and by seven seals
they revealed,
resistance against corruption.

Unbound Isaacs rose in peak of tide,
along sun's journey, to abide,
that man must pass
time-compass,
as right ruler, on rightful ride.

Unbound Isaacs, in sun's geometry,
made compass chronometry,
with star observation
of run in heaven,
as quantified into Runology.

INRI & Holy Grail

Donkey ride, in company of Scythian foal,
had animal drinking water as goal,
poured by Pilate's aqueduct
into fresh water pact,
to increase tourism on Scythian trail.

Monopoly, by cistern mafia of mind control,
had financial and brainwash goal,
as Moloch rejects water free
and prefers scarcity,
because of failing temple robber sale.

British toastmaster of Scythian cranial cup,
who, in last supper, drank bottom up,
and brought sword, not peace,
was to Caiaphas unease,
as Runology was given thumbs up.

Whovian Potterverse

Tea & Scones in Buckingham

Lizzy Lizard tried, by split tongue tip,
to taste an Earl Grey Rune sip,
but nasty nagging hag
was old tea bag,
and a totally flavourless squib.

Hogwarts in Scotland

Lizzy Lizard, reptile from outer space,
was caught in elaborate maze,
set forth by rising day
of Earl Grey,
in breakfast blend of grace.

Lizzy Lizard expired, at Hadrian's wall,
when Picts heeded Jacob's call,
and upheld sworn duty
reclaiming booty,
by Stone of Scone ancestral.

Lizzy Lizard's draconic carbon taxes,
in plot of empires of galaxies,
flopped flat on face
in reptile race,
as dragons can't read Runes.

King Who of Gallifrey

Lizzy Lizard hissed at logical problem,
heralded in Old English poem,
that only a man witful
in Runes skilful,
may rightfully rule the realm.

Lizzy Lizard had no right way to solve,
what takes a knight to evolve,
growing a man green
worlds between,
where runic cycles revolve.

Lizzy Lizard, the most dreaded reptile,
found grasp on throne futile,
as man resourceful
and rightful,
claimed Excalibur with style.

Christmas Carbon Pig

Harry Potter went out looking,
for his pig gone missing,
caused by high rise
in bacon price,
on carbon taxed cooking.

Voldemort, in world dominion,
called for carbon session,
so his snobby nose
could propose,
ban on smell emission.

Clever was pig, and much able,
spell cast fully capable,
and finest carbon
fried bacon,
kept dancing on table.

Nicholas Flamel

Nick Flame, the name of the game,
put all souffleurs to shame,
by alchemical stone
on pleb throne,
that philosophers call by name.

Nick Flame had caught out of blue,
a stone falling into his shoe,
and miraculous was
mustard palace,
that out of tiniest seed grew.

Nick Flame was celestial agrarian,
and runological planetarian,
with his cloud castle
on Avalon isle,
in walking distance of heaven.

Epilogue

Jacob's Ladder

Stars of heaven sing, in outer space,
in my chant of angelic amaze,
and dance of planetary
spells my oratory,
running course, in my race.

Tungola Ryne

Homestead song is sky wide open,
when gods amongst men,
in star wandering
of earthling,
seek heaven home again.

Appendix

Old English:

1. **Tun** is homestead.
2. **Gol** is preterite of galan (to chant).
3. **Tungol** is heavenly body, i.e. “homestead chant” in heaven, as the music of the spheres.
4. **Ryne** is run, the course of heavenly bodies.

In that sense, the Runes – as Ryne–Stafas – map the course of heavenly bodies, in the flesh, as Hogwarts curriculum in Harry Potter.
